

CSS 325: INDIVIDUAL ASSIGNMENT

Submission deadline: 3rd June 2026

Question:

- a) Explain the concept of Threat Hunting and describe the different methodologies that can be used in its implementation.
- b) Suppose you are tasked to perform threat hunting at the University using the Hypothesis-Driven approach. What hypotheses would you make, and what is the reasoning behind them?
- c) From (b) above, what data sources you would need for each hypothesis?
